

October 13, 2020

Background History of Krazy Flats Saloon.

I submit this background information from the start of the Krazy Flats Saloon in November 2002 to Nov 2009 so it can be understood how the early years were and how things have changed to now. I have only indicated what happened and no related stories which would make this document into a book.

Year 2002

1. It was approved at the GP meeting that CASI sell beer, soda and ice in Krazy Flats on the recommendation of Jimmy Taylor on the CASI Board. He had already made a road to go from the main area over to Krazy Flats - .
2. The board was concerned about which director would even go over there to run it. Again Jimmy Taylor said he stated Ken Rodd, because he was just elected to the board, but he is not here to say he will not take that job (I was in Florida at the last minute as my father was undergoing surgery. It was the first time anyone not present at the GP meeting got elected to the board.
3. The small 8x10 building was put on top of the hill to sell beer, soda and ice from Thursday to Saturday. Security during the operational hours was provided by the hired guards. Preston Nichols and his father slept in the saloon at night to provide security
4. The only power we had was from a generator Jimmy Taylor had which we had to keep running to keep ice frozen.
5. Preston Nichols & his father slept in the saloon at night for security.
6. Total sales was \$540.00 and the board was happy, but I felt we could do much better.

Year 2003

1. Saloon moved from the top of the hill to its current location as recommended by Jimmy Taylor to increase visibility and hopefully sales.
2. Wappo, an electrician and ran electric to Krazy Flats which provided the saloon with power for lights and the freezer so we no longer needed the generator He also put in additional electric hookups for future needs.
3. We established a "happy hour" on Thursday to increase business. Bill Renfro donated a couple of cases of Salsa for the chips we bought out of

our own pocket. He continued to sponsor our happy hours ever since and contributed a lot of chips and salsa for it.

4. Don & Diane Hoy volunteered to come over and help as I could provide them with Electric as Wappo had installed several electric outlets for the Saloon area (there were no vendors they yet – but we saw it as very possible).
5. I had asked the board to buy some shirts with Krazy Flats on them but was turned down as they felt they would not sell. I bought 150 shirts with my money. We sold them on Thursday when we opened up at 2pm with our “Happy Hour”. The shirts sold out in 45 minutes!!!. Susie Weber bought the first shirt as she stood in line for an hour to do so. I turned the sale money of those shirts to CASI and the board was most surprised. The only director, other than myself, to go to the saloon these first two years was Jimmy Taylor & Mel Fitzhenry the CASI President
6. A few chili cooks came over to look this year and walked away with a good attitude towards it and the work that was being done.
7. We had security during the operation from Bexar County Sheriff’s Posse and Preston and his dad slept in it for security at night.
8. Bob Steinle set up his “Radio Station” next to the saloon so people all over TICC could hear music and announcements.
9. Sales for this year went to \$1300.00 so the location change made a difference.

Year 2004

1. About the same as 2003 except sales went up to \$2100.00. In 2002, 2003 & 2004 I had to take the money up to the main area by walking to turn it in to the CASI Treasurer at least 2 twice a day in 2003 & 2004 as they would not come pick it up. Kind of scary at times with the money bag tuck in my belt under my shirt.
2. During this year prior to TICC CASI President Mel Fitzhenry made arrangements with Brewster County they could come into the Krazy Flats area to get gravel etc. they needed for road work. It resulted to much more gravel than expected, however it did open up a large area in front of the saloon that looks pretty nice.

3. Bob Steinle was asked to move his Radio Station from the Flats to the main cook's area but he told them no as he was told no by them before when he asked about putting one in. It was an asset so now they wanted it.
4. This year started the real negative on the Saloon as word was going around by some CASI people against the Saloon as "they are taking money away from CASI" even though all money was turned into the CASI Treasurer. Also the fact of the activities in the Flats of females showing their breasts – even though some of them did the same thing in the CASI cooks area's from the time I first went to TICC in 1993. However by this time they would not allow Krazy Flats spectators to enter the COOKS area. They use to drive thru it was a stage coach and a car doing the same thing to the pleasure of many.

Year 2005

I call this an important turn around year for the Krazy Flats Saloon. I knew we needed a bigger saloon like a pavilion where people could sit, relax and socialize with their beverages. I proposed a 20x40 pavilion. At the late January meeting they said no money would be allocated for such a thing. I then proposed that if I raised the money thru donations of \$10,000 would that be acceptable and they agreed – however they stated that all money must be raised FIRST as donors for the city hall building had not all paid and they were stuck with the rest of it to pay off. Here is what happened.

1. I started the Krazy Flats Charter Membership Club on February 1, 2005 with a limit of 100 members. To join it cost \$100.00 and would receive a Krazy Flats Shirt. It was printed with "Krazy Flats Charter Member" and the person's name. On April 1, 2005 I was able to email the board that we had \$10,000.00 in the bank with 100 members. They thought it was an April fool's joke as I sent the email April 1st. So I sent it again April 2nd telling them it was not a joke. They said OK, but there will be cost overruns so nothing will be done until another \$2,000 is on deposit. That was raised in a few weeks, but still the board dilly dallied around until late summer to have it built.
2. I went out and asked PODS/CASli members to donate a table with chairs for our new Saloon. The response was great as we got more than enough for table and chairs so we put a plate on each table on who donated it!!!!

3. At the directors meeting at TICC I told Mel Fitzhenry (CASI president) to have the meeting at the KRAZY FLATS SALOON instead of the judging area cause if he did not then most of the Board Members would not see the new Saloon!!! He agreed. And for several board members that was the only time they ever went to the saloon up until 2010 and a few past directors never have been.
4. What is funny is the fact that a board member seeing it when it opened and as busy as it was their comment to me was "You built it too small"!!!!
5. We had Bruce Smith & Bill Lester with their music band friends come and play entertainment as they donated their time and the board would not approve funds for this.
6. WIFI was installed for the Krazy Flats Saloon by Don Weber. This was nice because people had to come to the Saloon to use internet and more people came for the first time.
7. We had a Krazy Flats Charter Member breakfast on Thursday. We had a happy hour on Thursday.
8. We now opened on Monday and had special guests (Tolbert Chili cooks) on Tuesday for what became an annual event for them.
9. Si Brown, owner of Louisiana Hot Sauce, a major CASI sponsor, donated special Krazy Flats banners to our new Saloon and became an avid yearly visitor.
10. Some chili cooks, mainly our volunteers, cooked their chili at the Saloon on Saturday so they could work and also cook chili. The Saloon stayed open even during the chili awards on Saturday. The TICC Champion that year came over Saturday evening and each year after the Champion has come over after awards with their group.
11. Our total sales went to \$9600.00 dollars. Our volunteers working increased by many.

Year 2006

1. Much the same as 2005, but the negative stuff by a few still going on and by a few directors.
2. Sammy Plant donated 2 10x20 covers to increase the covered space for guests to sit under.

3. Bruce Smith & Bill Lester and their musician group continued to entertain. We presented them with Krazy Flats Shirts and announced they were the "official Krazy Flats Saloon House Band"
4. Krazy Flats Charter Membership group breakfast on Thursday morning.
5. Wendell Rankin donated a painted stove for us to raffle off. We used that money to update the saloon with fans and chairs for the workers.
6. Sammy Plant set up a HOTTUB by the Saloon and it was well used. So much going on that Sammy never brought it back.
7. The Main Concession store gave us a lot of "last year's items" that were not sold for us to sell. We did this for a couple of years having good success with them that in 2 years they no longer did this, but set up their own area in main concessions to do this themselves
8. Total Sales increased nicely again.

Year 2007

1. Raised money for putting in a 20x40 slab which extended the Saloon floor making it better seating underneath the 2 canopies.
2. Sales increased again to \$10,400.00
3. More merchandise was available and was selling
4. During TICC we started to raise money so a roof could be put in over the new patio slab
5. Someone on the Board did not like our Krazy Flats Saloon Sign placed upside down so they have it changed to right side up. Too funny

Year 2008

Another important year for the Krazy Flats Saloon as we added the 20x40 foot section to it that replaced the 2 canopy sections Sammy Plant had donated-Now we could sell beer, wine, soda & Ice from one side the original side was for Merchandise Sales. Again this was all paid for by DONATIONS given to us for this purpose in March thru May from mostly Krazy Flats Spectators from Hobbs, NM. Again the board stalled around saying there would be a cost overrun etc. Also some felt I was twisting CASI members arms for money, when in fact it all came from Non CASI people that stays in Krazy Flats on a regular basis. Finally Don Hoy with a friend of his to help went to Terlingua and got the job done during late summer for less money than we raised

1. Total sales went up again to \$12,900.00. Daily attendance went up.

2. The Board had Bruce Pinnell with the help of Don Weber set up WIFI for all of TICC. You could have WIFI for a charge, but Krazy Flats Saloon remained free.
3. The radio station was shut down due to recent activity by the FCC looking for “illegal stations” even though this one only covered the ranch, however there was another one operating in Ghost Town or Study Butte...
4. The Krazy Flats House band continued to entertain.
5. The Krazy Flats Charter Members breakfast was held and even enjoyed by nonmembers also as 152 were served.
6. Merchandise sales kept going up as each year we had a new Krazy Flats Shirt with a new logo on it.
7. Krazy Flats Saloon tips payed for the Brewster County Sheriff a place for them to detain people they needed to.
8. Bought a new freezer as Krazy Flats sponsors donated \$1581.00 for improvements.
9. Wappo put in electrical update for the new addition at \$20,000 in parts and labor which he got all donated!!!
10. Wade Hatton played at the Saloon and he was on the main stage on Thursday night.

Year 2009.

This was my last year on the CASI Board so the Board needed a new Director to oversee Krazy Flats. The Director selected was WAPPO. Don & Diane Hoy agreed to become the Krazy Flats Coordinators to oversee the day to day operation which was certainly a big blessing to keep this place alive and grow more.

1. Sales went up to \$15,900
2. Had the first sanctioned BBQ contest
3. 10 Krazy Flats sponsors donated \$1,000.00 for future upkeep & improvements
4. Water tank installed and donated thru Tim Colliers efforts.
5. Had a vehicle parade come past the Krazy Flats Saloon.
6. Si Brown, LA Hot sauce and major CASI sponsor, and Cody Olivera were sitting at the Saloon with Don Hoy and me, when Si told us we needed a pavilion for entertainment and he would donate it soon – I think it was built in 2011 but could have been later.

KRAZY FLATS CONCESSION REPORT – 2003

The new location of the booth certainly was a factor of increased sales as was the weather.

INCOME Turned IN

Thursday:	\$1501.00
Friday:	600.00
Saturday:	2150.00
Sent 11/7	345.00
Total	4596.00
Minus Bank	600.00
Net	\$3996.00

This is a \$3,000 increase from last year.

Improvements to be made:

1. Need to improve ability to store ice and restock ice. We were out of ice at times within 15 minutes of ice being delivered. Delivery during peak times was slow resulting in lost sales. The ability of the ice people to navigate to Krazy Flats at times also impeded delivery time. Often a lot of ice was sold enroute to the stand so in that aspect sales was not lost in total. Will Stateczny did an outstanding job considering all the factors he had to deal with.
2. We did sell a lot of last years shirts & hats compared to the current shirt & hats. I feel that shirts such as the special shirt made up for the open house would sell better than our current year CASI SHIRTS. I recommend we look at some ideas for separate shirts for that area such as tank tops, and other women types of tops in various colors. It was suggested that possibly we should copywrite the KRAZY FLATS logo so it won't get copied and sold on site later.
3. I need to line up the vendors so that are equal with the Krazy Flats booth and not out further so the booth is more visible. Also, need a sign or banner installed showing ICE – BEER – WATER & SHIRTS for sale.

4. We need to have more soda such as Diet Coke & Coke. Also I understand that the drink “Bull Energizer” is most popular in the younger crowd. Did have some requests for it. I understand the company comes out to the Fort Sam Houston CCO to promote their product at the base.

5. Volunteers – The group this year did a great job; however Saturday is still most difficult. Don Hoy stayed and worked the booth during announcements and on into Saturday evening. This is most commendable considering he also cooked Saturday. How many cooks would volunteer to remain behind during announcements? We need to consider finding a volunteer group to work Saturday at a minimum from 3:00pm to close and make a donation to that group’s charity or cause.

6. Hours of Operation. Most of the sales of souvenir type items are done prior to 6:00pm with the rest of the time being beer (ice sales comes at opening time). Sales Saturday evening slowed way down at 8:30pm and those that did come were buying only one or two beers. Thursday and Friday sales slowed a lot after 6:00PM. This is probably because the Flats area doesn’t really fill up until later Thursday and during the day Friday and they are stocked with their beer. If we stay open late, it could result in increased sales – but it also could be to people we shouldn’t be serving. Two edged sword here because many of them have had the limit by that time of day for sure in the Flats.

7. TRAFFIC FLOW – consideration of one way traffic in front of the stand. Saturday afternoon starting around 2:00pm until 6:00pm or later you could not drive that road. With vehicles stopped, parked and all with the show going on no emergency vehicle could possible have got thru.

Strong Points.

1. The Open House Concept was successful and the special edition shirt went over very well. Recommend we continue this and create another shirt for next year. One comment heard over and over from many many cooks was that this was the first time they were ever over in Krazy Flats!!!!
2. The booth location and the electric that was put in

3. The volunteers did great often walking from the cooks area to Crazy Flats to work. All the volunteers have indicated they will work again next year.

Building Improvements for 2004

1. Purchase a 98 quart cooler to replace open tub used for beer. Will retain ice longer and prevent the floor from getting wet from leakage.
2. Build a stand about 2 feet high along inside front wall for coolers to sit on so the workers don't have to keep bending way down to get the beer.

Ken Rodd

SUBJECT: Spectator Area Concession Stand

This report covers the operation for this year and recommendations I would like to see implemented for next year.

The gross income this year was only \$569.00. Factors involved for slow sales include but certainly not limited to the following:

- a. Location
- b. No advertising that there was a concession stand in the area
- c. Poor weather conditions on Friday.
- d. Closing Saturday at 2:30pm as there was no volunteers and I need to be at the stage area. Sales on Saturday were going very well with ice and case beer sales. Although only opened for 4 ½ hours, the total sales at that point equaled what was sold on Thursday and Friday with longer operational hours.

Recommendation for 2003 to increase income.

1. Relocate the booth to a higher visibility area as has been discussed.
2. Place signs on the roads in spectator area indication location of the booth
3. Information on the booth be included on the "information sheet" given to people attending TICC
4. I will even make up flyers concerning the booth to place in the inside the Porta Potties in the spectator area.
5. I will bring my PA system to use for concession announcements from time to time.
6. We should have a display AD in the October/November Trails concerning operational hours of all concession stands – some chili cooks attend but are not qualified or are not 320 members so do not get the information in a packet mailed to them.
7. Need more variety of shirt sizes as we had several requests for SMALL and Medium and did not have any of that size on Thursday and Friday. We had no shirts/hats after Friday as they were returned to the main stand for sale.
8. Need a large "banner" type sign to place on the stand with "Beer, ICE and Souvenir Merchandise"

Recommendation for operational efficiency in 2003.

1. Electricity – run electric to booth to INCLUDE a 30AMP plug outside the building.
2. Cleaning items such as: bar rags, broom, water, etc.
3. Build overhead storage area in each end of the building.
4. If we don't run electric to the building, we should purchase a couple of cots and sleeping bags for use by the person(s) that sleep in the building at night for security purposes.

Recommendation for Concession Staffing.

We have a problem staffing with volunteers on Thursday evening after 5:00pm and all day on Saturday. Thursday evening with the "Social Hour" and later with the Halloween Party of which most people that do volunteer want to attend those events. Getting volunteers on Saturday speaks for itself with the events of the day.

Possible solutions for Staffing.

1. Having a 30 amp plug outside the building (see #1 under Operational Efficiency) for a member to use for their RV providing they agree to operate the booth during the day on Saturday and on Thursday evening. Other times would be with other volunteers as we did this year. This also would provide some security during after closing without having to have a person sleep in the booth.
2. Put the concession stand on a "pay basis" either by the hour or a percentage of the gross sales during Thursday evening and all day Saturday for two people. I did meet on Sunday (at the Study Butte RV park and Motel) a "retired national park ranger" that said he and his wife could be most interested in doing this if it was an option.
3. Saturday WILL be a great day for sales for ICE & BEER and I do not like losing the potential income. Relieve me of my responsibility of being in the

stage area Saturday afternoon so I can continue to operate the stand myself.

Final Comments

I feel, as some of you involved with the booth, that the potential for income is great. I feel it could reach the \$5,000 income level in a couple of years. With good weather on Thursday, Friday and Saturday as we have seen in past years the sales of ICE and beer would really increase compared to the weather on Thursday and Friday this year.

I want to thank all of you for the support you provided me during this first year from providing a ride back and forth, to bringing me supplies or just stopping by to see if everything was ok and what I needed.

In closing, I want to go on record as VOLUNTEERING to be responsible for this operation next year to attempt to bring it up more to the potential I feel it has.

Something for Chili Cooks to think about

When I get to a chili cookoff I have been going to for years, do I get upset if someone is parked or cooking in “my spot”?

Do I try to meet “new” cooks at Cookoffs and welcome them – or do I wait for them to come say hello to me?

At a host sponsored “Cooks Party”, do I get my food and return to my cooking area or do I sit around with the host organization and their members.

Do I talk with the cookoff hosts membership (like VFW, American Legion, Elks, Moose, Etc) and express my appreciation for their work and hosting the cookoff?

If the cookoff is held at an establishment that serves beer, do I bring my own beer in their place of business?

Do I get upset if the Chili announcements are not made within 30 minutes of tallying if the host organization is finishing up an auction or some other activity as part of their fundraiser?

Do I complain about how cookoffs are run even though I have never put on a cookoff from start to finish?

After the Chili announcements are made, do I congratulate the new cooks that made the top ten or final table?

Have I offered to help a new cook in the past year?

Date: November 10, 2004

To: CASI Directors

Subject: After Action Report for Krazy Flats Concession Stand

Krazy Flats Concession Stand income increased from \$4200.00 last year to \$5700.00 this year. I feel the increased income was as a result of the following:

1. The second freezer put in the stand prevented a constant running out of ice and having to wait for a delivery. In regards to delivery time, the part of the road coming down into Krazy Flats that was widened also allowed for faster traffic flow which helped the ice people servicing Krazy Flats
2. The concession stand being in the same location for the second year makes it a familiar site with what is available.
3. Krazy Flats Open House was attended by more cooks coming over to Krazy Flats for the first TIME EVER this year than last. Word is spreading about Krazy Flats and the fun over there.
4. Krazy Flats Special edition shirt with a different theme brought repeat customers.
5. The road area in front of Krazy Flats Concession and the vendors was opened up so traffic could move thru easily and stopping to purchase items was possible
6. Having several volunteers that worked last year that are experienced with the type of customers in Krazy Flats. I might add, that most all of this years volunteers have signed for 2005 already. The special golf shirts made up for the volunteers (that they paid for) was most successful and a team builder.
7. Using two cash drawers this year, one for beer & ice, one for shirts, etc, as suggested by Renee gave better accountability of how much was sold in shirts and how much in beer.

Recommendations for 2005 to increase the effectiveness of Krazy Flats Concession Stand.

1. A sign at least 5' long and 4' high placed on the roof over the window with a light

to illuminate it during the dark hours. Recommend the sign be removable so it can

be stored during the year.

2. Previous years TICC shirts sell well and should be continued. However, possible

items with “Krazy Flats, Terlingua, TX” would sell such as “Dew Rags”. Also had many requests for “Chap Stick”, “disposable cameras” and batteries. I would

like other suggestions that might sell.

3. Selling shirts by moving thru the crowd on golf cart like the ice wagon.

4. Having “Specials” at certain slow times that might entice people to come and buy

during those periods.

5. Making up a flyer to give out to the spectators when they buy their wrist bands.

6. Need entertainment other than just the “Saturday Afternoon Show” to give the spectators something. A band from San Angelo may come down next year with the SACCA POD and play for nothing.

Future Growth Considerations

1. Krazy Flats Concession Stand needs to have a cover in the outer area which to place some tables and chairs to create a “patio” (a 20 by 10) rather than people standing out in the open. This would assist greatly both in bad and good weather

Summary

The Krazy Flats Volunteers – did a tremendous job and take a lot of pride in being part of this new endeavor at TICC. There is no doubt, the Krazy Flats Staff shirts with their names on them was a big hit with them. They all have volunteered to work again next year. They provide suggestions for improving operations, etc.

Last, I can not thank Don & Dianna Hoy enough – for the second year in a row they have worked the booth all day Saturday alone even though they

cooked chili. It is hard enough to find any volunteers on Saturday for Krazy Flats and the Main Gate, let alone someone that has cooked chili.
